Website URL: aasc.acm.org

DESCRIPTION OF SCHOOL -

Amity University is amongst the top Universities of India. In the year 2014, Amity University has been named by **Quacquarelli Symonds (QS)** as **one of Asia's top 300 universities**. The institute provides smart learning and excellent opportunities to its students so as to explore the scope in any stream. Mostly, it focuses on providing its students with ethical values, morals, overall development, and importance of team work, unity, responsibility and respect towards your work.

Amity University has been **ranked No. 1 Non-Profit Private University - India Today**. Amity University has also given out more than **25000 scholarships** to praise students for their hard work. We have **80 international universities as research partners** and more than **570 patents have been filed by faculties** in the last years.

Moreover, we have **300 Govt. funded research projects** carried out by the faculty and **1001 case-studies developed by Faculty** bought across **62 countries**.

DESCRIPTION OF CHAPTER -

Amity ACM Student Chapter (AASC) is one of the **most active and popular chapters at Amity**. Our team consists of very **dynamic, creative and enthusiastic students, graduates and faculty members of Computer Science and Engineering Department, Amity University**.

Apart from the **professional development opportunities**, AASC also provides students with **personal, social, and community service opportunities**, honing the overall collegiate experience. AASC started with just 4 members in three year but because of the student's and teacher's continuous hard work and dedication, we have grown to more than **1700 members** and are **on our way to become the world's largest chapter**.

Number of students at our school who take computer science and related courses - 1800

A simple quote drove us during designing - “**Make it simple yet elegant**”. The website had to be brusque, easy to navigate, and utmost important thing was make it completely compatible with different screen sizes to support present trend of increasing internet access from mobile devices.

We took time in deciding the colour scheme to make it eyesome and uniform. We chose to have a navigation bar present at the top of each page so that it was easy for the user to understand the components of website The website has:

1. **Home page** – Contains a latest news feed, upcoming events section, social network handles, event calendar and a pleasing stream of recent events photographs.
2. **Team** – It contains details of core, coders, web, media, sponsorship committees
3. **Join Us** – It allows personages who are keen on joining Amity ACM Student Chapter to know about us and perks of being in ACM with an elaborated guide for the process of enrolling to be an AASC member.
4. **Events** – Exhibits the event calendar to view upcoming events with a complete archive of the recent events held in Amity ACM Student Chapter.
5. **Achievements** – A list of the most notable and praiseworthy success stories of our members and their journey whom we a very proud of also with a few extraordinary achievements of Amity ACM Student Chapter itself.
6. **Projects** – A list of the abstracts of the innovative projects undertaken by our current students. A section where one can navigate to for getting excellent ideas and for ease the section is divided according to field sub-categories.
7. **Youth Entrepreneurship** – Amity ACM Student Chapter supports one of the major upcoming fields in the world. This section contains a list of all successful start-ups by our own esteemed members who through guidance and nourishment have made their way to glory.
8. **Contact us** – A list of people to be contacted for any query regarding any aspect of Amity ACM Student Chapter along with their email, phones and LinkedIn ID’s so as to be connected all the time and we can guarantee that it is monitored regularly.

Hard work is done by every single one of our members to make our chapter the best among all, and we chose the website to be the platform which gracefully acknowledges that. We use the website to inform people **not only about the achievements of our chapter**, but also the **achievements of our members separately**, because **we believe hard work deserves praise**.

With the increase in our **total members to a record breaking 1700**, and **paid members to a 100 members** we have chosen to further expand the website to increase the functionality, as

is being dictated by the demand. We want to add a **news feed section** which a student can access information about not only the events which are taking place, but also other **necessary details regarding placement/internship opportunities** and student information. Also we plan on **starting a chat service where members** can ask direct questions to any one or more of our senior members, and if deemed worthy, the **details of which will be publicly shared as a very helpful Q&A section**. However extensive testing is required to be done before these two services goes live.
