[www.acm.org](http://www.acm.org)

The **ACM Special Interest Group on Microarchitecture** (SIGMICRO) specializes in computer microarchitecture, especially features permitting instruction-level parallelism and their related implications on compiler design. Members include microarchitects, microprogrammers, advanced compiler designers, and researchers/developers of super-scalar, pipelined, and MIMD computer architectures. For more than 35 years, the annual MICRO conference has been a key forum for presenting major breakthroughs in computing architecture. Members receive the present and past proceedings of all SIGMICRO sponsored conferences in the ACM Digital Library.

The **Association for Computing Machinery** (ACM) is an educational and scientific computing society which works to advance computing as a science and a profession. Benefits include subscriptions to *Communications of the ACM*, *MemberNet*, *TechNews* and *CareerNews*, full and unlimited access to online courses and books, discounts on conferences and the option to subscribe to the ACM Digital Library.

### Mailing List Restriction

ACM occasionally makes its mailing list available to computer-related organizations, educational institutions and sister societies. All email addresses remain strictly confidential. Check one of the following if you wish to restrict the use of your name:

- ACM announcements only
- ACM and other sister society announcements
- ACM subscription and renewal notices only
