

About eLearn

eLearn Magazine is where research and practice meet to address how online learning strategies are used in a variety of contexts for a variety of audiences.

eLearn Magazine is a digital publication that engages a broad audience of industry professionals, researchers, and educators interested in online learning in higher education, K-12 settings, corporate environments, government, and non-profits. eLearn publishes articles addressing online learning in these specific context areas as well as content that is more general, such as instructional design, faculty management, emerging technologies, workplace training, and instructor development.

About Computers in Entertainment (CiE)

ACM Computers in Entertainment (CiE) aims to foster critical discussions and innovative thoughts among entertainment computing scholars and professionals as well as creative executives, writers, producers, directors, artists, designers, and other talents. CiE features peer-reviewed articles as well as non-refereed content in all aspects of entertainment technology and applications. It serves as a place to build community, find research partners, discover new possibilities, and share cutting-edge ideas.
