

About eLearn

eLearn Magazine is where **research and practice meet to address how online learning strategies are used** in a variety of contexts for a variety of audiences.

eLearn Magazine is a digital publication that engages a broad audience of industry professionals, researchers, and educators interested in online learning in higher education, K-12 settings, corporate environments, government, and non-profits. eLearn publishes articles addressing online learning in these specific context areas as well as content that is more general, such as instructional design, faculty management, emerging technologies, workplace training, and instructor development.

About Queue Magazine

Queue is ACM's magazine for practicing software engineers. **Written by engineers for engineers, Queue focuses on the technical problems and challenges that loom ahead**, helping readers to sharpen their own thinking and pursue innovative solutions. Queue takes a critical look at current and emerging technologies, highlighting problems that are likely to arise and posing questions and soliciting solutions from fellow software engineers.

Queue is published six times per year, with issues available for download via Google Play and the Apple App Store. Also available as a desktop digital edition.
