Cooper Union Adjunct Professor of Electrical Engineering, New York, NY, 2005 – Present.

**ACM Activities:**
ACM Audit Committee, 2006 – 2010;
SIGARCH Chair, 1999 - 2003;
SIGARCH, Secretary-Treasurer, 1997 - 1999.

**STATEMENT**

SIGARCH has been well served by its officers for many years now. I should know, since I served as a SIGARCH officer for several years a decade ago. SIGARCH is stable in membership, well funded, and continues to sponsor many first rank conferences. We are fortunate in that there are no pressing issues. We should continue to nurture new conferences in developing areas of Computer Architecture and to evolve the nature of publication and information dissemination in an electronic world. The goal of any incoming Chair is to keep this excellent record going. I had done so in the past, and would do so again if elected.
