ACM Technical Meeting Request Form (TMRF)

Section III - Statement of Understanding

The enclosed Technical Meeting Request Form has been prepared to the best of my ability. It is complete and accurate and I agree to provide ACM with required reports. I understand that all rights to the conference described in this request, including without limitation, the name of the conference, and whether arising now or with respect to the same conference held in the future, are the property of and belong to the sponsoring organization(s). I have disclosed to ACM in writing all persons or entities that, to my knowledge, have or may have had, any rights in or to the conference described in this request.

If this conference is approved for ACM sponsorship or co-sponsorship, I agree to remit surplus funds promptly and to comply with ACM policies regarding expenditures, financial reporting and distribution of funds. I understand that whenever it becomes known that income or expense will vary more than 15% (or the amount of contingency) in any major category of the budget, an amendment must be sent to the Program Coordinator at ACM HQ for approval distribution. I will use the budget as part of the final financial conference report by filling in actually for all revenue and expenses. This and other material comprising the final reports shall be submitted to ACM no later than 120 days following the completion of the conference.

I agree to submit a final report and 10 copies of the proceedings to ACM HQ within 120 days following the conference.

I am informed of the ACM policy on free circulation of scientists as it applies to the ACM Resolution on Sponsorship of International Conference of 25 May 1975 and of the spirit and intent of the relevant Resolution on the Free Circulation of Scientists of the International Council of Scientific Unions. I know of no aspect of the proposed meeting which is contrary to this intent.

I acknowledge that I am authorized to sign this Statement of Understanding, and I know of no conflicts with the statements made herein.

ACM will indemnify you for any damages you may incur provided that you have adhered to the foregoing policies and procedures.

In-Cooperation

ACM/SIGs lend the name of the organization to conferences which are fully sponsored by other nonprofit incorporated organizations. Such cooperation is to be primarily for publicity and to encourage Association members to participate by contributing papers and attending technical sessions. Cooperation specifically excludes financial participation, responsibility, or liability on the part of ACM.

Cooperation will be undertaken only if all of the following are established or estimated to be true:

- The technical meeting meets Association standards of technical excellence and has reasonable relevance to the activities of ACM/SIGs.
- Benefits will accrue to the technical meeting because of the cooperation of ACM/SIGs.
- Benefits will accrue to ACM/SIGs because of its cooperation.
- Association members are encouraged to participate on the organizing committee.
- The organizing committee agrees that within 3 months a short post-meeting report summarizing the results is to be forwarded to the Conference Committee of ACM/SIGs.
- The organizing committee agrees to state that this meeting is “in-cooperation with ACM/SIGs” in all references to the conference including conference promotions, proceedings, press releases, etc.
- ACM/SIG members are entitled to the same registration fee as available to member of sponsoring organizations.
- ACM/SIG members may purchase proceedings at the same rate as sponsoring organizations.
- A table is provided in the registration area for a display of ACM/SIG membership and publication literature if needed.
- Proof of liability insurance is provided by all sponsoring organizations.
In-Cooperation TMRF

http://www.acm.org/sigs/volunteer_resources/conference_manual/incoop

In-Cooperation TMRF consists of:

- general information concerning the scope of the conference
- sponsorship information of nonprofit incorporated organization(s)
- a hold harmless clause
- conference committee information (including the Conference Chair and Program Chair must be an ACM or a SIG member)
- the ACM Resolution on Sponsorship of International Conferences relating to scientific freedom

Organizers should check with the specific incorporated SIG at (http://www.acm.org/sigs) to confirm if there are any initial requirements that must be presented prior to submitting an In-Cooperation TMRF to ACM.

ACM conferences using another "In-Cooperation" organization's name must comply with the requirements for the lending society in so far as permissions are concerned.
In-Cooperation TMRF

http://www.acm.org/sigs/volunteer_resources/conference_manual/incoop

Procedure for submitting the In-Cooperation TMRF:

Submit all paperwork online here:
http://www.acm.org/sigs/volunteer_resources/conference_manual/incoop

Approval Process

SIG Services will review all submitted paperwork and secure approval for the conference dates from the sponsoring Volunteer subunits, taking into consideration overlapping dates. ACM official approval may take up to four weeks after receipt of all application documents.

ACM sponsored conferences seeking cooperating status from other ACM sub-units do not need to submit an "In-cooperation TMRF". A request for cooperating status can be made when submitting the "Sponsored/Co-sponsored TMRF."
