Officers and Committees

ACM SIGCHI is run by the Executive Committee (EC), which includes elected officers, the immediate past Chair, editors of membership publications, and appointed office-holders.

ACM SIGCHI Officers and Committees

- Executive Committee
- Adjunct Chairs
- Conference Management Committee

Steering Committees Chairs of SIGCHI Sponsored Conferences
Loren Terveen terveen_at_terveen@CS,UMN,EDU CSCW Steering Committee Chair
Michael Harrison Michael.Harrison_at_newcastle.ac.uk EICS Steering Committee Chair
Kim Halskov halskov_at_cs.au.dk DIS Steering Committee Chair
Rynson Lau rynson_at_cs.cityu.edu.hk VRST Steering Committee Chair
Scott Hudson scott.hudson_at_cs.cmu.edu UIC Steering Committee Chair

AC for Conferences
works with each of the steering committee chairs and with ACM Staff
for (50% or more co-)sponsored conference budget

if 2 conferences of a series in a row
return a surplus over the budget

next conference may request “Surplus grant (i)”
= ((sum(Surplus(i-1)+Surplus(i-2))/2) / 2

As long as the SIGCHI fund balance ...
to support governance, democracy, and continuity

SIGCHI developed the model of

**Communities within SIGCHI**
SIGCHI Communities

What are SIGCHI communities?

Communities are collections of people that are associated with SIGCHI who share a common interest. Communities may be geographic (many local SIGs would want to become a community) or they may be topical (UIST, CSCW, design, games, health care etc.) A community is a collection of people who, by banding together, can speak with a common voice within SIGCHI; can more effectively organize the activities that are of interest to them; and can obtain services that support their activities.

Who can join?

Anyone can join in with SIGCHI communities. All that is needed is a free ACM Web Account (use your existing account if you are already an ACM or SIGCHI member). Certain privileges are reserved for members of SIGCHI such as forming a new community, voting and holding elected offices within a community. Click here for information on becoming a SIGCHI member.
The CSCW Community

287 members (151 participants, 136 affiliates)

Community Information

The job of the Steering Committee is to represent the entire CSCW Community. However, the Chair and Chair-Elect appointed selected people who could represent major interests within the CSCW community, including major geographic areas (North America, Europe, and Asia) as well as main roles (academia, industry, graduate students). The complete set of members of the Steering Committee is:

Loren Terveen (Chair, Elected), The University of Minnesota -- terveen@cs.umn.edu
Pamela Hinds (Chair-Elect, Elected), Stanford University -- phinds@stanford.edu
Geraldine Fitzpatrick (Appointed), Vienna University of Technology
Brian Keegan (Appointed), Northwestern University
Meredith Ringel Morris (Appointed), Microsoft Research
Naomi Yamashita (Appointed), NTT Communication Science Lab
The CSCW Community Steering Committee encourage input from all members of the community. There are a number of important issues we are discussing, notably:

- The CSCW conference and a number of other ACM sponsored conferences have been making major changes to the review process in the past several years. We are considering the pluses and minuses of these changes carefully with the goal of settling on a process that serves the needs of all (current and potential) members of our community.

- What factors should the CSCW Steering Committee and CSCW Conference Chairs consider in selecting locations for future conferences? How often should we situate the conference outside of North America? What locations should we consider?

- What is the relationship of the CSCW Conference to the many other related conferences (e.g., GROUP, ECSCW, ICWSM, WWW, etc.)? Is the name "Computer Supported Cooperative Work" still an adequate description of what our community does and the type of work presented at the conference? Does it serve the needs of all our members?

The Steering Committee will be using various techniques to foster conversation on these topics.

**Mission**

This Community will serve the various needs, as they arise, of the broader CSCW community. In particular, it will provide a venue for people interested in CSCW and Social Computing to discuss timely issues of importance to the field. It will also oversee the annual SIGCHI CSCW conference, choosing conference chairs, advising on site selection, and considering any policy issues regarding the conference that may arise. The Community will also coordinate with conferences that have similar missions or content, such as GROUP, ECSCW, and any others that attract significant CSCW content.

**Officers**

Chair: Loren Terveen
What are SIGCHI communities?

Communities are collections of people that are associated with SIGCHI who share a common interest. Communities may be geographic (many local SIGs would want to become a community) or they may be topical (UIST, CSCW, design, games, health care etc.) A community is a collection of people who, by banding together, can speak with a common voice within SIGCHI; can more effectively organize the activities that are of interest to them; and can obtain services that support their activities.

Who can join?

Anyone can join in with SIGCHI communities. All that is needed is a free ACM Web Account (use your existing account if you are already an ACM or SIGCHI member). Certain privileges are reserved for members of SIGCHI such as forming a new community, voting and holding elected offices within a community. Click here for information on becoming a SIGCHI member.

**Who can join?**
Anyone can join in with SIGCHI communities. All that is needed is a [free ACM Web Account](https://www.acm.org) (use your existing account if you are already an ACM or SIGCHI member). Certain privileges are reserved for members of SIGCHI such as forming a new community, voting and holding elected offices within a community. [Click here](https://www.acm.org) for information on becoming a SIGCHI member.
Start a Community

SIGCHI members can start a community. A community should not overlap in purpose with an existing community. Communities can be geographic (many local SIGs would want to become a community) or topical (UIST, CSCW, design, games, health care, etc.).

* indicates a required field.

**Community Name**  (Do not include the word "Community").

**Community Short Id**  (use lower-case letters and no spaces - this will be used in the URL to reach the community)

**Should the community hold elections to appoint officers?**

☐ Yes  ☐ No

You will be the initial "acting chair" and will organize additional officer structure. Afterward, elections will be held to determine who will fill each position - including the chair position.

**Community Mission Statement**  (What is the community’s scope and purpose?)

Community Founders (must have at least 5 including you - founders must be members of SIGCHI)

1. Gerrit Van der Veer (you) - Acting Chair
2. Founder Email
3. Founder Email

8. Founder Email
9. Founder Email
10. Founder Email

Message to Co-founders (will be emailed to other founders with community founding request)

Adopted Special Interest Groups (SIGs)
Members of the following SIGs are eligible for full participation in your community (i.e. founding a community, holding an elected office, voting, etc.):

Before adding any SIGs, you should seek presidential approval from the SIGCHI President, and visit ACM's listing of SIGs to ensure proper entry of the SIG identifier (e.g. SIGGRAPH, SIGWEB, etc).
