

# UIST2005

October 23-26, Seattle, WA

## Eighteenth Annual ACM Symposium on User Interface Software and Technology Oct 23-26, 2005, Seattle, Washington

UIST is the premier forum for innovations in the software and technology of human-computer interfaces. The symposium brings together researchers and practitioners from many diverse areas of user interface work. Topics include traditional graphical & web user interfaces, tangible & ubiquitous computing, virtual & augmented reality, multimedia, new input & output devices, and computer supported cooperative work. The intimate size, the single track, and comfortable surroundings make this symposium an ideal opportunity to exchange new research results and implementation experiences.
