- 1.2 State the purpose to the committee:

ACM-W's mission is to support, celebrate, and advocate for women in computing globally. We address this mission primarily via three programs: administrative and financial support for regional Celebrations of Women in Computing, establishment and support of ACM-W Student and Professional chapters, and awarding of scholarship funds that enable undergraduate and graduate students to attend technical conferences.

Additional efforts focus on specific sub-groups of women (K-12, community college, young professionals) and on establishing stronger ties to other diversity efforts within ACM (SIG liaison).

- 1.3 Indicate the organization of the committee into subcommittees or other subunits; give a one-sentence description of each subunit's charter.

- Celebrations Committee – provides support to organizers of ACM-W Celebrations of Women in Computing events worldwide.
- Student Chapters Committee – encourage the establishment of student chapters on university campuses, provide an online community of support (Facebook) and recognize chapters for outstanding efforts.
- Professional Chapters Committee – support the establishment of support communities for professional women and connect those communities to student chapters in their area.
- Scholarships Committee – elicit scholarship applications, vet applications, administer funding associated with the project.
- Community College Committee – support the work of ACM-W Student Chapter and Celebrations projects as related to community colleges.
- Education Committee – explore ways in which ACM-W can impact the K-12 community by partnering with existing K-12 organizations such as CSTA. (Note: this committee has been largely inactive this past year due to health issues of its chair and a couple of its members).
- Communications Committee – provides support for communication within ACM-W and to the ACM-W membership via our newsletter and social media accounts
- ACM-W Europe Committee – support the mission of ACM-W in Europe
- ACM-W India Committee – support the mission of ACM-W on the Indian sub-continent

1.4 List dates of committee meetings.

Spent Funds: \$0

### **Ad Hoc Activities**

- ACM-W continues to provide small amounts of support to a variety of conferences and events that support women in computing and diversity in general. We also continue to support the work of Stawa University in Uganda as they do outreach to rural and poor urban women in the area.
- ACM through ACM-W has joined as a partner in the Global Gender Gap in computing project. This three year project requires that ACM pay for travel expenses of its volunteers in support of project goals. This year this travel included workshops in Thailand and South Africa and a partner meeting in Paris.
- As a part of the MOU between ACM-W and CRA-W, we have provided \$25,000 of support to bring groups of faculty from outside of the US to attend the Grad Cohort workshop. This year's event was in San Francisco. We are pleased that three groups - one in Spain, one in Ireland, and one in India – have moved forward to plan/hold events in their regions.

### **3. PLANS**

- 3.1 List projects that will be completed or terminated in the coming year.

- No projects are slated for termination at this time.

- 3.2 List important changes or milestones in active projects during the coming year.

- Reorganization of the Education Committee will occur in the coming year with a sharpening of the focus of this project.
- An assessment of the current governance structure of ACM-W including the makeup of the council will be undertaken this fall. It is possible that a major reorganization will result. In addition, 3-5 year strategic planning will be completed.

- 3.3 List new projects or programs which are proposed or contemplated

- In order to increase the global scope of ACM-W, organizational efforts within East Asia and possibly Latin/South America are being contemplated. Ideally, this would include a face-to-face workshops with representatives from several countries in these

regions in order to communicate the goals of ACM-W and its projects and provide communities of leadership within each area.

3.4 List details of plan to increase the diversity of the committee membership, with respect to younger members, a wider geographic representation, and a better balance with respect to industry/academia, gender, and other under-represented groups.

- As part of the reorganization and strategic planning efforts, we hope to increase the geographic diversity of the Council (e.g., inclusion of representatives from East Asia and Latin/South America) and potential inclusion of one or more male Council members.
- A building out of the Next Generation Committee will be undertaken and programs that will increase membership of and provide support to this group will be discussed.

4. **COMMENTS**

- ACM-W is appreciative of the support of ACM and its headquarters staff. Without the support of many of them (Pat Ryan, Liz Zhang, Bruce Shriver, Sunita Jaswal, Haritini Kanthou, Chris Guccio, and many others) we would not be able to sustain the work of our Council.

Current appointment: Joy Yen, Queen's University, [joy.yen@queensu.ca](mailto:joy.yen@queensu.ca)

The Celebrations committee provides support to organizers of ACM-W Celebrations of Women in Computing events worldwide. The committee tracks events and ensures that each event receives ACM promotional items and financial support prior to their event. The committee collects data on all Celebrations by way of a common survey and produces a year-end report on the Celebrations project based on the collected data. The committee communicates with event organizers to promote best practices and to ensure that ACM-W is promoted at each event. All committee members promote the Celebrations project (and other ACM-W projects) to encourage new Celebrations. Reports on Celebration events are shared monthly via the ACM-W Connections and the ACM MemberNet publication.

Social Media Updates	Farzana Rahman	Sept, 2017	ongoing

The committee oversaw 22 Celebrations worldwide from July 1, 2017 - June 30, 2018.

## PLANS

- a) Increase our use of social media (twitter, facebook and instagram) to promote Celebration events.
- b) Keep the new website updated with pictures and info from recent and/or upcoming Celebrations.
- c) Expand and update our online resources for Celebration coordinators. We will work from the “Celebrations in a Box” resource to create a fully on-line resource.
- d) Provide a letter of recognition for Celebration coordinators at the end of each event.
- e) Examine the Celebration funding model.
- f) Provide more explicit guidelines for Celebrations and ask for a budget prior to dispersing funds.
- g) Actively recruit new celebration organizers in the USA.

## COMMENTS

The number of Celebrations was down slightly from last year (26 Celebrations in 2016/2017, 22 Celebrations in 2017/2018). Celebrations were geographically distributed: 6 USA, 1 Canada, 10 Europe, 2 India, 1 Philippines, 1 Chile, 1 Turkey. The number of European celebrations is increasing (4 last year, 10 this year) while the number of US Celebrations is decreasing (12 last year, 6 this year). We had 7 potential US Celebrations that cancelled this year. It is important for us to determine the reason for the decline and to put measures in place to keep the Celebrations going. The most likely cause for the decline is organizer fatigue. Most of the Celebrations that have taken place over the years have been organized by the same group(s) of people. This model is not sustainable. We need to encourage the Celebration organizers to bring new people on board with the goal of taking over the Celebration in coming years.

	Alan Jamieson	2016-2020
	Shahnaz Kamberi	2016-2020
	Chutima Boonthum	2015-2019

1.2 State the purpose to the committee:

ACM-W Student Chapters aims to recruit, retain, and celebrate women students in computing and to develop a sense of community. We accomplish these goals in conjunction with ACM Headquarters staff, where a dedicated staff member coordinates all ACM/ACM-W Chapters. The committee members recruit new chapters through conference booths and presentations and through personal contacts. We approve all new chapters; communicate with Chapter officers and ACM Headquarters staff; contact probationary and lapsed Chapters; write articles for the ACM-W Newsletter; manage the Student Chapters Facebook group; manage the Student Chapters web page; manage data generated by reports, the website, and the Facebook group; develop new materials and update old; staff conference booths; answer email correspondence; and manage our projects (such as the ACM-W Student Chapters Best Officer award).

Budgeted: \$0  
Spent: \$0

Please list active projects before passive or completed ones; and list the most

important projects first.

3. PLANS

3.1 List projects that will be completed or terminated in the coming year.

None.

3.2 List important changes or milestones in active projects during the coming year.

- The best activity contest is evolving into one with multiple awards for lower amounts. Submissions are made by posting on social media.
- The branding campaign will accelerate this year with more stickers, new t-shirts, and business cards for student chapter members. We will make swag available for student chapter events.
- We are planning new activities associated with Grace Hopper including small rewards for visiting our booth.
- We are working on changing the networking award. The current contest has not drawn much support. We plan to survey our members to understand their current networking activities and how best to support and promote them.

3.3 List new projects or programs which are proposed or contemplated

- We are planning a new social media campaign. It will launch at Grace Hopper.
- We are going to start an allies program; we will add a male member to our committee and in spring we'll produce/distribute t-shirts geared for allies.

3.4 List details of plan to increase the diversity of the committee membership, with respect to younger members, a wider geographic representation, and a better balance with respect to industry/academia, gender, and other under-represented groups.

We added Rachel Chesley to the committee. Rachel is a recent graduate and will work on the social media campaign.

We will add a male member to our committee to work on our new allies program.

1.2 State the purpose to the committee:

We believe that providing professional women with ways to stay connected to ACM-W will be a great source of personal support after graduation and support the next generation of technical women. The following goals are emerging under our charge of establishing, connecting, and promoting ACM-W Professional Chapters.

- Goal 1: Establish model ACM-W Professional Chapters
  - We look forward to connecting with existing professional chapters and working toward creating models to help new chapters get started. If you have a professional chapter, we want to hear from you. Send us a picture and list of projects you are working on.
- Goal 2: Connect ACM-W professional chapters to ACM-W student chapters
  - We look forward to facilitating communication between student chapters and professional chapters to help with outreach and mentoring projects.
- Goal 3: Connect ACM-W professional chapters to ACM-W celebrations
  - We look forward to facilitating communication between celebrations and professional chapters to help with conference participation.
- Goal 4: Connect ACM-W professional chapters to ACM-W student chapter alumni
  - We look forward to helping professional chapters recruit recent graduates, especially those from colleges that have ACM-W student chapters. If you are a recent graduate and would like to get a professional chapter started, let us know. We can give you some ideas about how to get started.
- Goal 5: Promote ACM-W professional chapters
  - Look for us at the regional Celebrations and conferences such as SIGCSE and NCWIT and keep checking our web pages and social media for new information.

List any comments you wish brought to your Board's or Council's attention.

1. Besides celebrations and ACM-W events, how do we become a positive influence on women in tech roles in general? What other avenues can be effective (social media, press releases, outreach to other organizations)?
2. How can we (ACM-W Professional Chapters) add more value (support)?
  - a. To college student chapters?
  - b. To K-12 students?
  - c. To professional chapters
3. How do we help professional chapters connect with college student chapters?
4. What do college students need/want from professional chapters? Do they know what they need/want?

**1. BASIC INFORMATION**

1.1 List of committee members, terms of office; begin with chair. As an appendix, attach the address list of the committee's members.

- Adriana Compagnoni - Member since 2011 - Chair since 2012
- Viviana Bono - Member since 2012
- Maribel Fernandez - Member since 2012
- Elaine Weyuker - Member since 2012
- Valeria de Paiva – Member since 2015
- Elena Viojo – Member since 2016
- Magie Hall – Member since 2016 – Stepped down February 2018
- Vishakha Sharma – Member since 2017

1.2 State the purpose to the committee -- its current charter.

The ACM-W Scholarships program provides support for women undergraduate and graduate students in Computer Science and related programs to attend research conferences. This exposure to the CS research world can encourage a student to continue on to the next level (Undergraduate to Graduate, Masters to Ph.D., Ph.D. to an industry or academic position). The student does not have to present a paper at the conference she attends.

The committee evaluates scholarships applications six times a year: August, October, December, February, April, and June.

In the period July 1, 2017 - June 30, 2018 the committee evaluated 100 applications. The committee awarded 37 scholarships for a total of \$34,200.

See Figure 1 for applications and awards details.

### 1.2.1 Communications and Data

The Communications member of the committee is Valeria de Paiva and the Data members of the committee are Viviana Bono and Adriana Compagnoni. Our committee wants more young women to know about the ACM scholarship, therefore we are writing about the program every month for the online Communications of the ACM-W newsletter. Every other month we write about the new awards, and in between awards, we write celebrating and discussing snippets from the reports that the awardees have sent us of their travels and experiences.

Choosing stories and pictures to showcase in the online newsletter can be outright fun. And reading some of the reports is very rewarding indeed. But we are also aware that the work could be better supported and we are discussing ways to do it. We need better databases that keep the information unified and queriable by all who need to read it, and it would be good if the work of extracting needed information for the required processing of the applications could be improved.

**Report-Back Database:** As part of our publicity/communications strategy, as mentioned above, we request awardees to submit a report describing their experience at the event they attended.

We publish the reports, including photographs from the event, in our website. These testimonials have proved useful in publicizing the ACM-W scholarship program and providing useful information for future applicants and awardees.

However, there is a backlog of reports in the new reports system implemented under the leadership of Melanie Wu. There was a misunderstanding with reports member Magie Hall, who regularly uploaded reports to the old repository, and never got access to the new repository. This issue was identified when Magie left the committee in February, and Vishakha Sharma has volunteered to take over the reports management once Melanie grants her access to the repository.

**SIGs Liason:** Despite the sustained number of scholars, and the popularity of conferences such as GECCO and CHI, SIGs have continued to support our efforts and every request for registration waiver and mentor has been granted.

Following a tradition of strong support, SIGEVO has been proactive in offering extra support for potential scholars. Khulood Alyahya wrote: *"Bing and I are the organisers of this year's Women@GECCO workshop. Could you please send us the contact details of this year's ACM-W winners to attend GECCO 2018. We will assign them mentors based on their research interests. We thank you for your continued support for women at GECCO."*

However, for the first time in the history of the ACM scholarships program, SIGPLAN refused to provide registration waivers and mentors for our scholars. The pushback from the SIGPLAN leadership was unprecedented.

1.3 Indicate the organization of the committee into subcommittees or other subunits; give a one-sentence description of each subunit's charter. Name the individual responsible for each subunit.

The administration of the scholarships program includes the following tasks:

- Screening, evaluation of applications, and selection of awardees: all committee members
- Interface with SIGs: Adriana Compagnoni, Elaine Weyuker and Viviana Bono.
- Bookkeeping: Viviana Bono and Adriana Compagnoni
- Reports repository: Magie Hall and Adriana Compagnoni
- Application website re-design/architecture/interface with ACM HQ: Adriana Compagnoni and Viviana Bono
- Post award management (reimbursement/reports/visa letters/certificates): Adriana Compagnoni, Maribel Fernandez, Magie Hall

- General enquiries about the scholarships program: Adriana Compagnoni and Viviana Bono
- Monitoring of incomplete applications/support letter request: Viviana Bono and Adriana Compagnoni
- Publicity/Communications: Valeria de Paiva and Adriana Compagnoni
- Annual Reports: Adriana Compagnoni

1.4 List dates of committee meetings.

The committee meetings took place online via e-mail to evaluate applications in August 2017, October 2017, December 2017, February 2018, April 2018 and June 2018. The reviews take place over a period of two weeks after the 15<sup>th</sup> of each corresponding month.

2. PROJECT SUMMARY

List all projects, of the committee or its subunits that have been active at any time during the fiscal year. Use this format:

Title of Project with one or two <u>line description</u>	Responsible <u>Person</u>	Starting <u>Date</u>	<u>Status</u>	Funds <u>Budgeted</u>	Funds <u>Spent</u>
--	------------------------------	-------------------------	---------------	--------------------------	-----------------------

N/A

3. PLANS

3.1 List projects that will be completed or terminated in the coming year.

N/A

3.2 List important changes or milestones in active projects during the coming year.  
The backlog of reports will be processed in 2018-2019.

3.3 List new projects or programs that are proposed or contemplated.

Membership changes:

Adriana Compagnoni's term as chair has expired, and a new chair is being recruited. At the same time, Maribel Fernandez, Viviana Bono and Elaine Weyuker have completed a second two-year term as members of the committee. Furthermore, Magie Hall has stepped down in February 2018 due to increased service load in her faculty position.

We plan to recruit new members/associates with specific responsibilities hoping to be able to attract volunteers with a lower hour/cycle commitment. For example, certificates of attendance and badges for display on websites are simple tasks, yet time consuming, that will be easy to outsource. We have identified two such volunteers, and they will be invited to join the committee.

**Volunteer Task Database:** We plan to create a volunteer task database to enable members of the community to volunteer their efforts for time-sensitive, limited, and well defined tasks.

**Conference Eligibility Review Process:** With the increasing number of conferences it is becoming challenging for the Committee to evaluate the eligibility of the conferences that applicants wish to attend. We plan to design a submission and review process to evaluate conferences. ACM and IEEE conferences in computing will be automatically eligible, others will be subject to review.

- 3.4 List details of plan to increase the diversity of the committee membership, with respect to younger members, a wider geographic representation, and a better balance with respect to industry/academia, gender, and other under-represented groups.

No new members were added to the committee.

#### 4. COMMENTS

List any comments you wish brought to your Board's or Council's attention.

1. The committee would like to know what resources from ACM we have access to.
2. Chris Guccio and Tim Olegario have been instrumental in the improvement of the submissions site addressing all our issues and proposing future improvement that would alleviate the task of the current manual bookkeeping.

Some of the proposed improvements include:

- Verification by the applicant of the submission of support letters.
- Support letter reminder sent by the applicant.
- At the moment the total number of applicants has to be counted by hand. The proposal is to automate this record keeping.
- Notifications have to be issued by accessing every single application. Future improvements include a decision screen containing all applicants and decline/award options. The decision page will have the option to revise decisions.

- Adding a gender self-identification question.
3. Last but not least, the committee works hard at helping women world wide pursue careers in computing. While the work is rewarding in itself, with heartwarming reports from scholars, it would be good if ACM would express recognition for all the effort that goes into running the scholarships program.

**ANNUAL REPORT**  
of the COMMUNICATION COMMITTEE  
For the Period: July 1, 2017 - June 30, 2018  
Submitted by Yuqing Melanie Wu

---

1. **BASIC INFORMATION**

- 1.1 List of committee members, terms of office; begin with chair. As an appendix, attach the address list of the committee's members.

Yuqing Melanie Wu

Committee chair

Term started 7/1/2012

Jen Goodall:

Vice Chair

Term started 7/1/2017

The communication committee works closely with communication liaisons from other committees of ACM-W. The liaisons helped manage the web contents of their corresponding web section and provide contents for *ACM-W Connections*.

- 1.2 State the purpose to the committee -- its current charter. If an ad hoc committee, state the termination date.

- Generate coverage of ACM-W news, events, awards and activities
- Assist other ACM-W committees in raising their profiles and report their accomplishments.
- Grow ACM-W community by conveying information and projects of ACM-W

- 1.3 Indicate the organization of the committee into subcommittees or other subunits; give a one-sentence description of each subunit's charter. Name the individual responsible for each subunit.

- Currently there is no sub-committee within the Communication Committee.
- The communication committee works closely with communication liaisons from other committees. The liaisons helped manage the web contents of their corresponding web section and provide contents for *ACM-W Connections*.
- The communication committee also works closely with ACM staff members, who assist us in implementation and maintenance.

- 1.4 List dates of committee meetings.
- In September and October 2017, Melanie Wu organized a couple of training sessions for webpage liaisons of Chapters and Celebrations to take over the content of their sections on ACM-W webpage
  - In late 2018, multiple meetings were held, with social media liaisons of chapters and celebrations committee.
  - Since early 2018, multiple meetings have been held with Jen Goodall to help her take over the editing of ACM-W Connections
  - In early 2018, meets were held with co-chairs of professional chapters committee to help them set up webpage section for professional chapters.
  - Melanie Wu and Jen Goodall communicates with communication liaisons of the committees of ACM-W every month to coordinate the monthly newsletter *ACM-W Connections*.

2. **PROJECT SUMMARY**

List all projects, of the committee or its subunits that have been active at any time during the fiscal year. Use this format:

- ACM-W webpage migration

While maintaining the old ACM-W webpage, which was constructed on Drupal platform in 2013, we started a project that migrates the webpage to ACM server using Wordpress. The project is conducted with the help of ACM staff members.

Timeline of the project:

- Nov 2016, site frozen for the old website of ACM-W
- Dec 2016-Jan 2017, content migration
- Feb 2017-Aug 2017, debugging
- May 2017-Aug 2017, development of new Scholarship module
- Aug 2017: new ACM-W webpage launched
- Aug-Oct 2017: training sessions for webpage liaisons of sub-committees
- Apr 2018: introduction of new professional chapter section

- ACM-W Connections

This is an on-going project that started in early 2014. Since then, we have broadcasted a monthly newsletter called *ACM-W Connections* to all registered ACM-W members.

In each issue of ACM-W Connections, we feature recent ACM-W Celebrations events and new activities of ACM-W chapters, announce ACM-W scholarship awardees and feature their stories, report activities at ACM-W Europe and India, and announce upcoming ACM-W related conferences and scholarship opportunities. Every other month, we also feature an interview of *Women of ACM*.

- ACM-W Social Media

Chapters and Celebrations committee have appointed social media liaison and have been using social media platform of their choice to coordinate activities. We have not yet constructed an infrastructure that channel the information to the central ACM-W social media.

### 3. PLANS

3.1 List projects that will be completed or terminated in the coming year.

- We will try to make sure all sections are up-to-date and all committees take responsibility of their sections

3.2 List important changes or milestones in active projects during the coming year.

- ACM-W webpage

Some mini-projects to enhance the webpage:

- Sanity check for all contents
- Help committees develop their contents
- Develop “friends of ACM-W” section

3.3 List new projects or programs which are proposed or contemplated.

- We will consider starting new projects to enhance some sections of our webpage, such as Celebrations.
- Leadership transition

Melanie Wu has chaired the communication committee since 2012. She will focus on training Jan Goodall into the leadership role of this committee in the next year for a smooth transition in the year after.

3.4 List details of plan to increase the diversity of the committee membership, with respect to younger members, a wider geographic representation, and a better balance with respect to industry/academia, gender, and other under-represented groups.

- We expect the liaisons, especially social media liaisons of the committees, to include younger members, who are the driving force and recipients of the news feeds in these media channels.

### 4. COMMENTS

List any comments you wish brought to your Board's or Council's attention.

Please provide a brief (paragraph) summary of one or two of your activities that would be of interest to the broad ACM community (or provide a link to a write-up of such information).

## **APPENDIX**

- Periodic calls were scheduled with various committee members on need basis.

## 2. PROJECT SUMMARY

List all projects, of the committee or its subunits that have been active at any time during the fiscal year. Use this format:

Please list active projects before passive or completed ones; and list the most important projects first.

- Celebration of Women in Computing
  - o AICWiC- ACM India Celebration of Women in Computing(national level)
  - Chennai – AICWiC 2017
    - Bangalore – AICWiC 2018- June 28, 29
    - o Eight regional celebrations
  - ACM India Summer school on Information Security and Forensics (3 weeks – 11

th

June, 2018 – 29

th

June 2018)

- National level Womens Hackathon o Oct 2017, at Chandigarh

- ACM India Grad Cohort

- o First planned on July 6-7, 2018 at IIT Bombay

- ACM-W iSIGCSE Faculty Summit(Sept 12, 2017)

- ACM-W Chapter Summit
  - During AICWiC 2018- June 28, 2018
- Scholarships given to about 100 Women students and 15 faculty members.

3. PLANS 3.1 List projects that will be completed or terminated in the coming year.

All the projects are designed to continue on yearly basis.

3.2 List important changes or milestones in active projects during the coming year.

To reduce involvement of ACM-W Council members in the projects mentioned above.

Involve/Invite participants from other countries for :

o AICWiC & o Summer School for Women(3 Weeks residential school).

3.3 List new projects or programs which are proposed or contemplated

o Grad Cohort India 2018. The plan is to continue this every year. o ACM-W Professional chapters to be charted and mentored.

3.4 List details of plan to increase the diversity of the committee membership, with respect to younger members, a wider geographic representation, and a better balance with respect to industry/academia, gender, and other under-represented groups.

The current organization of the committee represents diversity in terms of:

- Younger members: Two members are in thirties. One of them was ACM-W Student(Best student Chapter award winner) Chapter Chair.
- Wider geographic representation: The members are from North, South, East, West regions of India.
- Industry/academia balance is achieved with a good mix of members from academia, industry and independent consultants.
- Gender, and other under-represented groups : As of now all the committee members are women. This diversity aspect can be handled during the next cycle of council member recruitment in 2019.

1.2 ACM-WE Mission and Vision

ACM-WE (ACM Women in Computing Europe) is a standing committee of ACM Europe. It is setup to carry out the ACM-W mission within the scope of the ACM Europe.

The ACM-WE vision is a transformed European professional and scholarly landscape where women are supported and inspired to pursue their dreams and ambitions to find fulfilment in the computing field.

The ACM-W Europe mission is to foster women's education and careers in computing and encourage the European professional and scholarly community to inspire women to take part and realize their potential in computing. It fulfils the ACM-W Mission to support, celebrate and advocate internationally for the full engagement of women in all aspects of the computing field.

## 2. ACM-WE Activities

ACM-WE activities are devised to

- Advocate diversity in computing

- Promote visibility of women in computing
- Raise awareness of the importance of women being in the computing profession and as ACM Members
- Address the challenges faced by women in computing
- Increase participation of women in leadership positions of ACM
- Raise awareness of career options in computing
- Collaborate with similar organizations in Europe
- Share resources, ideas and experiences with the community.

They have been grouped into three main pillars: celebrations, networking, and empowerment. In 2018/19 we will map these activities onto impact and objectives, focusing on benefits that professional women gain from

- Increased awareness (about their own self, context, and opportunities)
- Increased competencies and skills, beyond the computer science profession, and
- Initiatives and actions, e.g., through entrepreneurial activities in their environments.

### National Contacts

Panagiota Fatourou. ACM-WE has initiated work on National Contacts and currently established connection with representatives from 14 countries. We have completed a document that sets the guidelines for enlisting National Contacts and their work.

### Outreach

Bev Bachmayer has led the outreach of ACM-WE to ACM Members in Europe via.

The outreach activities include

- ACM-W Europe monthly newsletter (<http://europe.acm.org/acm-w-europe-newsletter-archives.html>)
- Blog
- Visibility and Outreach on Social Media:
  - Twitter (<https://twitter.com/ACMWomENcourage>)
  - Facebook (<https://www.facebook.com/womencourage/?fref=ts>)
  - LinkedIn (<https://www.linkedin.com/groups/5138577>)
- Activities at Other Conferences
  - BoF Sessions (Case Studies) for Increasing Diversity @ EuroBSD, Belgrade, HiPEAC, Stockholm (Article in HiPEAC Info)
  - Invited to EuroBSD 2018.
  -

### 3. PLANS

Plans for 2018/19 include a concerted effort towards increasing the impact of the ongoing activities.

- Continue organizing womENcourage ACM Celebration of Women in Computing
- Expand the Steering Committee for womENcourage Celebrations to oversee community engagements related to Celebration in Europe
- Continue to develop National Contact network and begin active engagements with the representatives to collect regional information about needs of professional women in computing
- Increase awareness of ACM Awards and encourage European women computer scientists to apply or be nominated for advanced levels of memberships and awards
- Support ACM-W Chapters and Celebrations in European
- Share resources, ideas and experiences related with women in computing with the community.

#### 3.1 List projects that will be completed or terminated in the coming year.

All our projects/initiatives will continue in 2018/19.

#### 3.2 List important changes or milestones in active projects during the coming year

1. We will refresh the Executive Committee and Advisory Committee with new members from the academic and practitioner communities, aiming for individuals with different backgrounds and experiences.
2. We will seek partnership with organizations that can provide professional women in computing with complementary skills and opportunities for initiatives. We will begin exploring opportunities to partner with experts in leadership and entrepreneurship.
3. We will increase the sub-committees with volunteers at different stages in professional career in order to cater for a diverse spectrum of needs and preferences in the ACM-W Europe community.

- 3.3 List new projects or programs which are proposed or contemplated
- Re-implementation of the ACM-WE Web site to fit the new Web design and template
  - Expand the National Contacts Network
  - Initiate regular data gathering and reporting on professional women needs in Europe
  - Successfully complete the organization of womENCourage 2018 (Belgrade, Serbia 3-5 Oct'18)
  - Prepare the ground for womENCourage 2019.

Overall, our objective is to maintain the level of activities as in 2017/18 and put emphasis on impact by looking for ways to capture the benefits we deliver to ACM professional women in Europe. We will focus on three enablers: information, skill, and initiative, as depicted in the Figure 2.

Figure 2. ACM-WE activities will be assessed from the perspectives of three enables of professional growth, i.e., their aims and impact through providing information, encouraging development of skills, and motivating actions and initiatives.

- 3.4 List details of plan to increase the diversity of the committee membership, with respect to younger members, a wider geographic representation, and a better balance with respect to industry/academia, gender, and other under-represented groups.

ACM-WE committees and initiatives involve professional women from different regions and backgrounds. As we continue to expand the community of volunteers, we will use

our national contacts, advertisements through social media, and newsletter to reach out to all the countries in Europe and entice women to engage with our activities.
