Aditi Goyal (aditi.ag2511@gmail.com)	Joint Secretary

About University of Petroleum and Energy Studies (<http://www.upes.ac.in>)

Established in the year 2003, University of Petroleum and Energy Studies emerged as Asia's first energy and core sector University offering industry focused specialized undergraduate, postgraduate and doctoral programs in various fields. UPES is committed to maintaining high standards in providing the best quality education and endeavors to be recognized as the 'Nations Builders University' with a vision of creating specialized professionals in the core industrial sectors that contribute to the economic growth of the country. Its primary goal is to develop domain specific and talented professionals who are ready to join the core industries by providing them proper resources they need to enhance their professional skills. It has many student chapters and societies consisting of student members, and faculty sponsors who work together to create a healthy working environment for the students. UPES believes in providing opportunities to each and every one to showcase their talents in front of the world by carrying out different technical and non-technical competitions, fests and events as well as workshops and tutorials. Its mission is to improve the skillsets of the individuals and upgrade it to a level which will help them stand out from the rest and bring out the best in them.

About UPES ACM Student Chapter

Twitter: <https://twitter.com/UPESACM>

LinkedIn: <https://www.linkedin.com/groups/6603473/profile>

Established in the year 2010, The UPES ACM Student Chapter primarily focuses on creating interest, developing logical thinking ability and spreading awareness about the technological and computing information among the people. Started as a small unit, the UPES ACM society evolved consistently year by year and is now the only student chapter with international exposure. The UPES ACM team believes in working together as a family and always standing as a constant support for each other. Currently a team of about 400 members, the chapter works as hard as possible and put all our hearts and sweat to make sure that it functions properly and stands to people's expectations. Its main motive is to educate the community, sharing the valuable knowledge they have with the people and keeping them updated with the latest happenings in the technological world. It welcomes new and innovative ideas and makes sure that they get the proper exposure. ACM chapter conducts several workshops on various technical and non-technical themes from experts specializing in that field. It also conducts competitions, technical events, gaming events, fun contests to make sure there is entertainment and learning side by side. The annual technical fest, Prodigy which concentrates on increasing the passion and interest among the learners in their respective domains, happens in the month of March or April. It is the combination of dedication, hard work and hunger for achieving perfection, along with the utmost sincerity shown by the team that makes UPES ACM chapter the best. The constant show of support and active participation from its members makes it work even harder than ever to maintain the reputation it has built over the years.

“Talent wins games, but teamwork and intelligence wins championships”

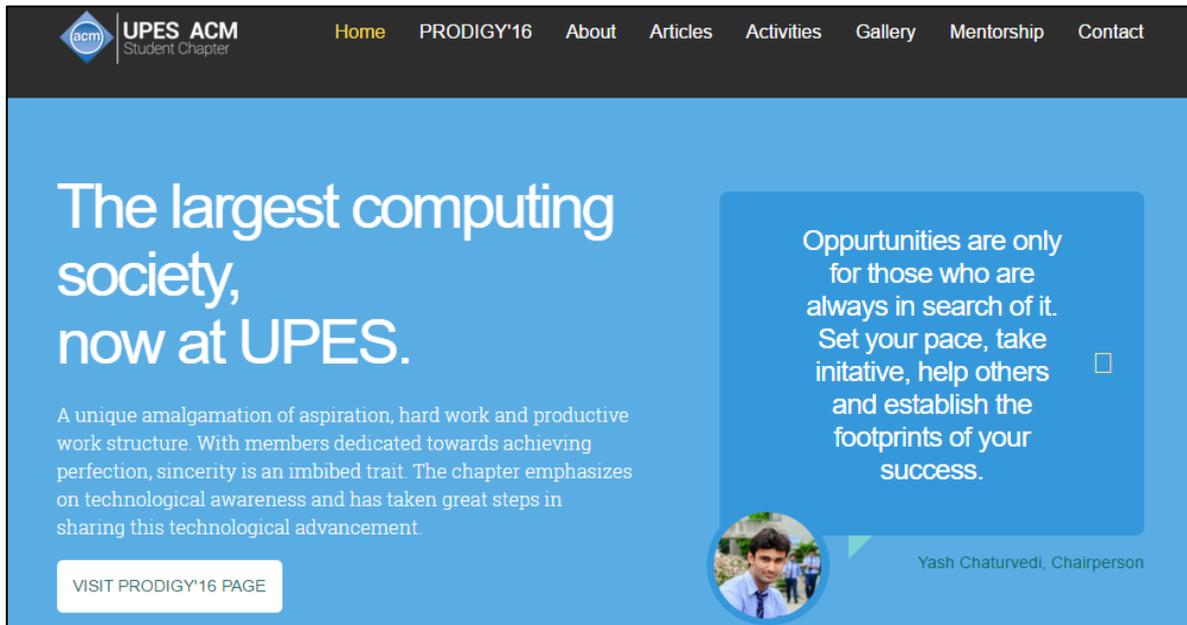

This beautiful quote from **Michael Jordan** truly defines the shining journey of UPES ACM student chapter

Team UPES-ACM

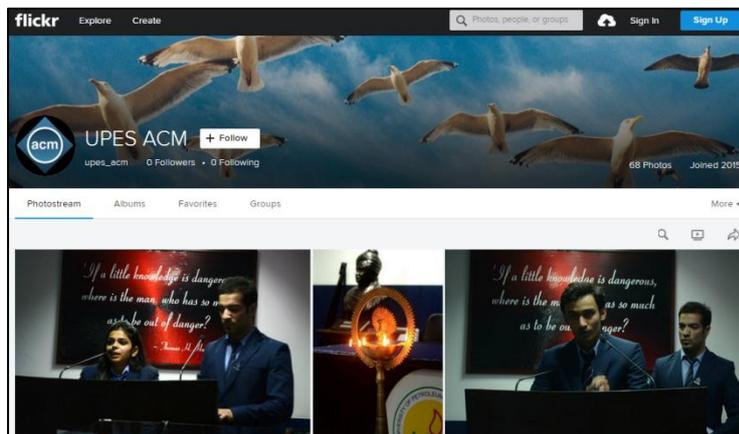

ESSAY: WEBSITE

The UPES-ACM student chapter ventures to develop a debonair model of arête technical learning among the students of University of Petroleum and Energy Studies. One such venture is our official UPES-ACM website www.upesacm.org, a collaborative effort of the Core Committee members of our chapter to promulgate their savvy in the world of technology.

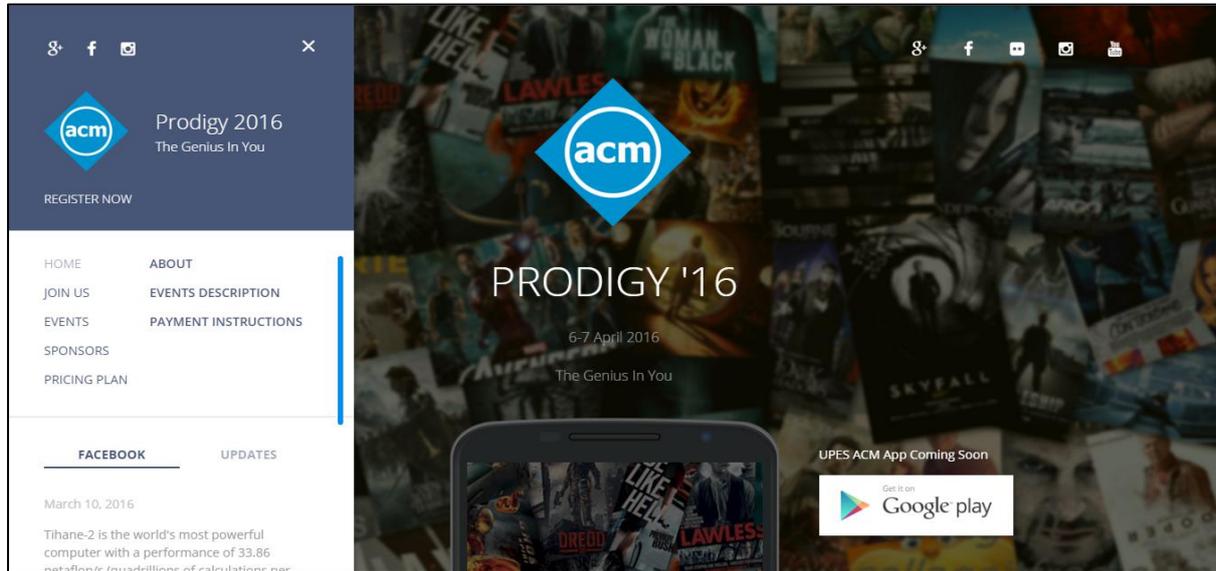

The website is fully committed to providing information regarding the UPES ACM & ACM-W Student chapter in a clear, usable and accessible format with a crisp design and typography. The website is regularly updated with the past as well as the upcoming events and activities of the chapter.

Details regarding all our past events are present on our website Timeline along with an exclusive gallery on Flickr, with snapshots from all the events and the group board meetings.

Take a look at our gallery: www.flickr.com/photos/136992561@N08/ . Furthermore, the results of all our events are also available on the homepage and in a separate Latest Activity menu.

The website also provides easy access to the Chapter’s prestigious Annual Tech Fest, Prodigy’s Official Website prodigy.upesacm.org, which focuses on providing all the relevant details of the events that were conducted. One of the most impressive features of our website is the online registration where the students can register themselves by paying online.

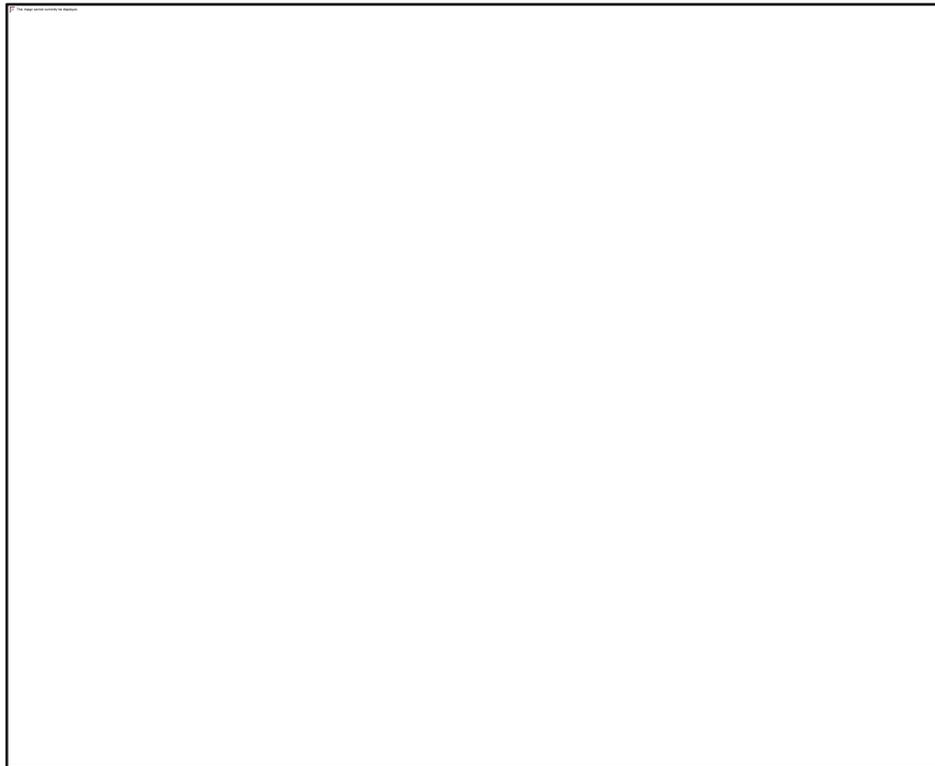

Our website has all the necessary security features and we are immensely proud of it. This year, we took the next step by hosting some events on our own website. These events ranged from online technical quizzes and puzzles to website hacking events.

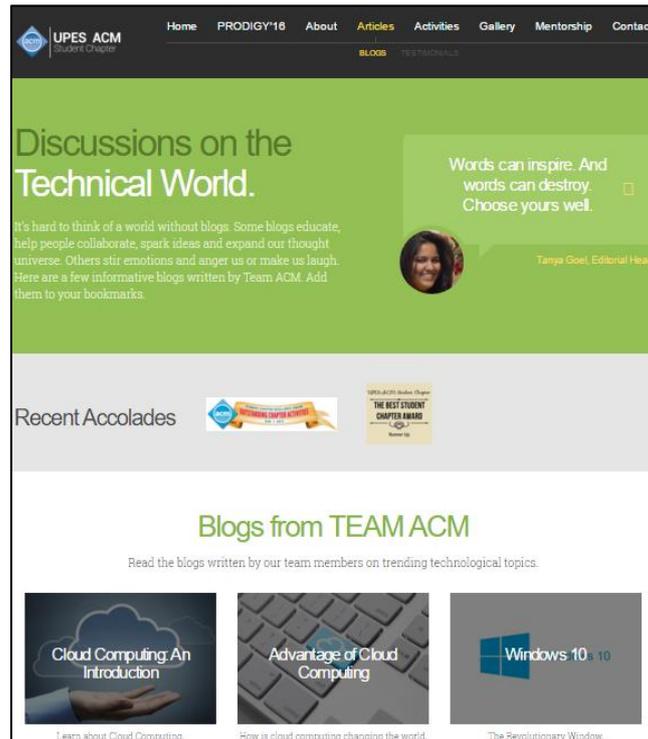

BlackHat, the website hacking event proved the robustness of our website, and was the first of its kind to be conducted in the state.

The puzzle, Tangled, had a massive participation, and consequently, number of attempts to find vulnerabilities, but the chapter's website development team was always one step ahead.

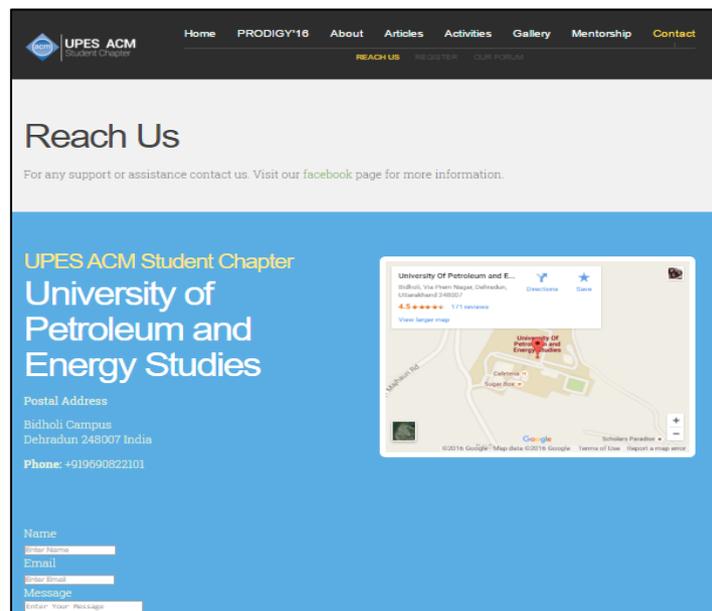

The Testimonial section features the thoughts and experiences of our community members. Likewise our Mentorship facility presents an opportunity to the students to enrol them in our mentorship program where they can seek help regarding anything from studies to projects and career advice, under the guidance of a mentor. Adding to which is our yet another distinguishing feature, The Forum section, where community members answer the queries of the students on various technological topics.

The website also constitutes a cliquish blog featuring articles by the members on several interesting topics and affairs spanning from cloud computing to telecom. You can access the same by clicking on the following link – www.upesacm.org/articles.html .

Our Chapter executives are also well presented in the Team Section with their LinkedIn profile for professional networking purposes. The website also offers online Registration feature by which interested students can join UPES ACM by paying a minimal amount. The site is intelligently designed for easy access & user-friendliness. It is fully responsive, mobile friendly and pixel perfect. Our technical team has worked very hard on it and our website is a true reflection of their immense skills and efforts.
