DESCRIPTION OF SCHOOL

Bharati Vidyapeeth's College of Engineering, New Delhi since its establishment in 1999, has strived to provide the best engineering education to its students through well qualified and dedicated faculty and provision of well-equipped modern labs.

The college affiliated to Guru Gobind Singh Indraprastha University, New Delhi, and approved by All India Council for Technical Education (AICTE), Ministry of HRD, Govt. of India, BVCOE is steadily striding forward in its quest of establishing itself among the top engineering colleges in North India.

The vision of the college is to continuously excel and thus coming together enlivens the research themes, creates awareness about upcoming technologies and provide platform to budding research workers for achieving their rightful place in the scientific community.

DESCRIPTION OF CHAPTER

The **BVCOE Delhi Student Chapter of the ACM** was established in May, 2013 with a goal to provide students a better exposure to ideas, knowledge, experience, and trends in computing. The chapter aims at creating interest among the students in computer science apart from what they learn during the course work. The Chapter organizes various technical events like Programming Contests, Technical quizzes, Discussions etc.

ESSAY: Outstanding Student Chapter Website   (http://bvcoe.acm.org/)

In a world that's online for the better part of day, websites have become the quintessential mouthpiece of any corporation. We at ACM BVP understand the importance of a great website in the growth of an organisation. The first thing one observes on the ACM BVP website is a picture collage of colourful, happy smiling faces. They are of course, the outspoken members of the student chapter, some of them being the student members and others the faculty mentors. This visual tribute confirms that the ACM BVP student chapter recognises and appreciates the value of each of its members and its first priority is to nurture the skills of each of its members and use these skills to take the student chapter forward.

The same page addresses the all important question of, "Why join ACM" along with links to all of our hosted events as an earnest attempt to reach out to the student community and make them more aware of the multifarious activities they can benefit from. For easy navigation, at the top of the webpage, a utility pane is provided with various topics of interest on it. These are the quick links for the diverse contents offered by the website. Notably, this area also contains the links of the annual fest organised by the student chapter, called 'ENTHEOS' and links for other upcoming events.

Scrolling down, we see a welcome note to the user which briefly describes the ACM BVP Student chapter to the uninitiated. It also describes what we do here, what it feels to be a part of an international society, and what are the advantages gained through joining the society. The 'About Us' section describes the global computing society of ACM, its functions and operations worldwide and their impact on the people. It also showcases the various events hosted by the society. Next we see a carousal of images showing the activities of the student chapter around the year. One can easily infer from these images about the popularity of the events by looking at the large number of students attending them.

Directly below it, we see the core team members of the student chapter, their respective designations and a few words about them. There are also the testimonials of ex-members of the society. In the 'Get in Touch' section, the user can submit their feedbacks, queries or share a pertinent thought or suggestion. Another major factor which leads to the success of the website is Search Engine Optimization, which directly impacts how high it appears in the list of websites when relevant terms are searched on the search engine. It is a website that ticks all the right boxes. It is the perfect riposte to the ACM BVP motive and drive.
