About MIET and MIET ACM Student Chapter:

Description of MIET:

Model Institute of Engineering and Technology, Jammu is one of the oldest institutes of the state of J&K which was established in 1996 with a vision of creating a world class institute & a mission to Deliver Exceptional Value to Students, Industry and Society.

We have a rich heritage of Fourteen (14) patents at the Indian Patents and Trademarks Office and over 450 research papers including 200+ international research papers. The Center for Software Development has incubated 2 IT products besides developing 3 mobile applications till now.

A Center for Research, Innovation and Entrepreneurship has also been setup to promote student-led innovation and applied research, besides incubating companies from campus. Competitive grants worth Rs.1cr have been received by the institute till date from various agencies.

MIET has established linkages with four of the top ten IT companies in the world – IBM, EMC, Cisco and Microsoft offering students access to the latest technologies, software and training to help them develop industry relevant skills. Innovation is the guiding philosophy of MIET's approach to technical education. Whether it is becoming the first institution in India to adopt software analytics for quality and strategic management or promoting entrepreneurship, MIET is at the forefront of all things innovative.

In 2016, we have received the Quality Council of India's D.L Shaw Platinum award for The analytics software, Performance Insight 360. We have also received the Ricoh Education Excellence Award for "Best Institution in the Use of Technology in Student Services".

Description of CHAPTER:

MIET ACM is the first ACM student chapter established in J&K at MIET, JAMMU. The chapter is one of the most active chapters of the institute since its inception in October, 2016. The chapter in a very less time with the dedicated efforts of its members has managed to gather much publicity in the society for leading different activities. The chapter has been a great source of inspiration for the entire student as well as the teaching community to be associated with ACM and as such, has made MIET ACM to gather a volunteer base of around 70 Students and 17 permanent members who work hard to keep this chapter up and running. The Chapter has been doing regular activities in not only the technical areas but also in social and personal development of the member community as well as the society. MIET ACM is dedicated to impart the computing knowledge to the society. A total of 500 students are taking computer science course at MIET.

Our Website

Chapter Website URL: mietjammu.acm.org

"What separates design from art is that design is meant to be... functional." This is the main driving force behind our Chapter website. We have tried to keep the design simple yet elegant with a proper mix of color to make the look and feel of the website much more professional and also kept the navigation hazel free. The Chapter website is the best way to connect with the student Chapter as well as with the professional body ACM on a whole. The website consists of some special features which are as under:

1. Animations in different sections to create visual appeal.
2. Admin Panel for the chapter officials to update the website content.
3. Direct links to website, registration portal and Facebook page of ACM.
4. User friendly interface and contact form to reach us in much less time.
5. Dynamic content which makes the website live and much more interactive.

The main contents of the navigation bar are:

HOME: This tab contains a latest upcoming events section, about section, news feed & updates section, social network handles, registration tabs and a pleasing stream of social plug-ins.

EVENTS: This tab has been sub divided into two categories namely:

- **Recent events:** It contains the detail of all the events along with the activity calendar.

- **Distinguished Lecture:** It is dedicated to the latest speaker who will be visiting the campus for the Distinguished Speakers Programme and contains all the details of the speaker and his/her work.

TEAM: This tab contains the information of all the chapter officials, members and volunteer team members who act to keep the chapter active.

NEWS: This tab guides us to the Latest News section.

JOIN US: This tab contains the links to the registration portal of ACM for Students and Professionals to register.

GALLERY: This tab contains an eye catching interface of event pictures with selector to top 3 recent sections which gets updated dynamically.

CONTACT: This tab is for all who want to connect with the MIET ACM. It floats a form whose content gets mailed to all the chapter officials who get back to the same in the least possible time.

Hard work is done by every single member of our team to make our chapter the best amongst all, and we choose the website to be the platform which gracefully acknowledges this fact. This website is to inform people not only about our chapter, but also about the various events of our Chapter and members separately, because we believe hard work deserves praise and should be acknowledged. We have chosen to further expand the website to increase the functionality, as is being dictated by the demand. We want to add news feed about not only the events, but also other necessary details regarding other opportunities and student information. Also, we plan on starting a chat service where members can ask direct questions to any one of our senior members, and if deemed worthy, the details of which will be publicly shared as a very helpful Q&A section. However extensive testing is to be done before these services go live.
