

Resources for Members

Knowledge, Collaboration, & Innovation in Computing

ACM Learning Center

Resources for lifelong learning - essential tools to stay informed and competitive in our constantly changing world through online books, videos and courses, and Learning Webinars.

<http://learning.acm.org>

ACM Online Books, Videos and Courses

Professional Members enjoy access to the entire Safari collection of 40,000+ online books from O'Reilly and other top publishers, 5,000+ video courses and O'Reilly conference videos, 200+ learning paths, and 300+ live online training classes. All members (including Student Members) have access to nearly 4,800+ online books and thousands of "bite-sized" skill- and task-based videos from Skillssoft, as well as nearly 1,200+ titles from Elsevier (featuring Morgan Kaufmann and Syngress titles). New books and videos are added weekly.

Plus, all members have access to more than 1,750 self-paced online courses from Skillssoft, an award-winning leader in IT and business training, with integrated virtual labs, TestPrep exams, expert mentoring, and other resources. Skillssoft Learning Collections provide deep coverage of the most in-demand skills and technologies, with focus on software development, cybersecurity, big data and databases, networking, and project management. Popular vendor certifications covered include BCS and ISTQB (software testing), Cisco, CompTIA, CWNP, EC-Council (CEH), EMC, IIBA (CBAP), (ISC)2's CISSP and SSCP, ISACA's CISA and CISM, ITIL, LPI (Linux), Microsoft, Oracle, PMI, PRINCE2, and VMware.

ACM Learning Webinars

ACM Learning Webinars feature "virtual keynotes" and cutting-edge technical tutorials by distinguished speakers covering the hottest topics in computing today—and the burning questions of tomorrow. The webcasts are presented live and recorded for on-demand viewing. Topics have included Agile Methods, Apache Spark, Big Data, Blockchain, Clojure, Hadoop, HPC, JavaScript, Kubernetes, Machine Learning, Microservices, Parallel Programming, Python, Site Reliability Engineering, TensorFlow and more.

ACM Digital Library

Members can subscribe to the world's most comprehensive database of literature for computing professionals. This full-text database includes the complete collection of ACM's publications, including journals, conference proceedings, magazines, newsletters and multimedia content. The ACM DL aims to provide comprehensive coverage of the literature and also contains detailed bibliographic resources from a wide range of publishers in the field of computing.

<http://dl.acm.org>

ACM Career & Job Center

Opportunities to view and apply for a wide variety of highly targeted technology jobs including corporate postings not often seen on commercial sites.

<http://jobs.acm.org>

ACM Queue

ACM Queue, ACM's magazine written by and for practitioners, is now available in mobile and desktop digital editions, and provides access to *Queue* content in convenient, on-the-go formats. Now it's easier than ever to benefit from *Queue's* unique perspectives on how current and emerging technologies are being applied in the field. With all the features readers have come to expect from an electronic magazine, *Queue* delivers not just technical articles focusing on today's problems, but lively video chats, roundtables, case studies, and columns. Downloadable from iTunes or Google Play, or browser, the bimonthly issues are free to ACM members.

<http://queue.acm.org>

ACM Conference Discounts

Discounts on Special Interest Group (SIG) conference registration plus access to more than 170 ACM-related annual international conferences, symposia, and workshops featuring leaders in information technology and computing.

ACM Publications

ACM publishes, distributes, and archives original research and perspectives from leading computing and IT professionals. Many ACM publications include practical content for software developers, designers, and engineers.

- **Communications of the ACM (CACM)**, the flagship magazine of ACM, featuring five sections—News, Viewpoints, Practice, Contributed and Review Articles, and Research Highlights—which provide ACM's broad readership with critically important information.

<http://cacm.acm.org>

- **Ubiquity**, ACM's online magazine oriented toward the future of computing and the people who are creating it.

<http://ubiquity.acm.org>

- **interactions**, the premier publication in human-computer interaction.

<http://interactions.acm.org>

- **ACM Journals and Transactions** cover cutting-edge aspects of computing, with articles written and edited by leading experts in their respective fields. The world-renowned **Transactions Series** with 40+ titles features many of the most respected peer-reviewed authors in computer science.

<http://www.acm.org/publications>

- **Conference proceedings**, produced by ACM's 170+ conferences held worldwide.

<http://dl.acm.org/proceedings.cfm>

ACM Special Interest Groups

ACM's **37 Special Interest Groups (SIGs)** represent virtually every major area of computing. SIGs offer a wealth of resources including conferences, proceedings and newsletters covering a broad spectrum of technical expertise and providing firsthand knowledge of the latest development trends. ACM SIGs are a great way to meet peers, delve deeper into particular technical areas, and volunteer on interesting projects.

<http://www.acm.org/special-interest-groups>

ACM Local Chapters

Hundreds of local chapters worldwide function as intellectual and geographical nodes of activity for both ACM members and the computing community at large, offering seminars, lectures, and the opportunity to meet peers and experts. Our Professional and Student Chapters enable all members to network with others with similar interests.

<http://www.acm.org/chapters>

ACM-W

ACM-W is ACM's membership group dedicated to encouraging the engagement of women in activities in all areas of computing. In addition to celebrating women's successes by exploring opportunities in the field, ACM-W helps make women more visible in their respective communities.

Additional ACM Benefits & Services

- **TechNews**, tri-weekly e-digest delivering the latest IT news www.acm.org/technews
- **CareerNews**, twice-monthly e-digest on career-related topics <http://www.acm.org/membership/acm-careernews-archive>
- **MemberNet**, monthly e-newsletter on ACM people and activities <http://www.acm.org/membership/acm-membernet-archive>
- **ACM Bulletins**, e-notifications of ACM news and initiatives <http://www.acm.org/membership/acm-bulletin-archive>
- **Ubiquity**, opinion magazine and forum <http://ubiquity.acm.org>
- **eLearn**, magazine on distance learning <http://elearnmag.acm.org>
- **Communications Newsletter**, monthly highlights of *Communications of the ACM*
- **Email Forwarding**, free acm.org address with spam filtering
- **Table-of-Contents Alerts**, for ACM journals, magazines, proceedings or SIG newsletters
- **Technical Interest Profiles**, providing targeted information matching your personal area of focus
- **Discounts & Special Offers**, access to valuable products and services: insurance, books, travel, and more <http://www.acm.org/membership/discounts>
