Benefits:

2012

Member Benefits provided to SIGMOBILE Members:

- The quarterly journal and newsletter "Mobile Computing and Communications Review" (MC2R), serving both as a newsletter keeping SIGMOBILE members informed, and as a scientific journal publishing high-quality peer-reviewed research papers on mobile computing, and wireless & mobile networking.
- Access to proceedings of SIGMOBILE-sponsored and co-sponsored conferences in the ACM Digital Library, as well as selected conference proceedings for other conference held in-cooperation with SIGMOBILE.
- A monthly e-mail SIGMOBILE newsletter, including SIGMOBILE announcements, pointers to relevant mainstream news articles of interest to SIGMOBILE members, a calendar of upcoming events of interest to our members, and pointers to developer news for active developers in the area of mobile computing and wireless networking.
- Qualify for the lowest registration rates at conferences and workshops sponsored by SIGMOBILE, and for the many events that are "in cooperation" with SIGMOBILE. SIGMOBILE sponsors five conferences each year (MobiCom, MobiHoc, MobiSys, SenSys, and Ubicomp).
- Opportunities to share ideas, learn of new results and practices, network with colleagues, and be active in a vibrant community of colleagues in all areas of mobility of systems, users, data, and computing.
- Through the Member Value Plus program, automatically receive a CDROM after each of SIGMOBILE's five conferences, containing the full conference Proceedings.

Community Benefits provided by SIGMOBILE:

- Organization and sponsorship of five annual conferences (MobiCom, MobiHoc, MobiSys, SenSys, and Ubicomp), and promotion of emerging new areas through exclusive sponsorship of numerous workshops each year (e.g., HotMobile, MobiOpt, VANET).
 - A range of full-day and half-day tutorials at many SIGMOBILE conferences, offering attendees an easy way to broaden their knowledge.
 - Announcements via a moderated email distribution list about events of interest to those in the mobile computing and wireless networking community, such as conference Calls for Papers, and Calls for Participation.
 - The SIGMOBILE Outstanding Contribution Award, given to recognize an individual who has made a significant and lasting contribution to research on mobile computing, and communications & wireless networking.
 - The SIGMOBILE Distinguished Service Award, given to recognize an individual who has made exceptional contributions to ACM SIGMOBILE, its conferences, publications, or its local activities.
 - Other awards including the Best Paper Awards given by the Program Committees of MobiCom, MobiSys, MobiHoc, SenSys and UbiComp conferences, and the Best Presentation Award given at MobiCom
 - Support for students at SIGMOBILE conferences and workshops, through reduced registration fees, student travel awards for some conferences, student poster sessions, and hosting the ACM Student Research Competition at some conferences.
 - Financial support for community resources including CRAWDAD, and N^2 Women. CRAWDAD, the Community Resource for Archiving Wireless Data At Dartmouth, also develops better tools for collecting, anonymizing, and analyzing the data. N^2 Women, Networking Networking Woman, fosters connections among the under-represented women in computer networking and related research fields.
 - The SIGMOBILE web site at <http://www.sigmobile.org>, including a wealth of information for the community, such as complete details on SIGMOBILE conferences and workshops; information on SIGMOBILE membership, chapters, awards, and publications; and a Ph.D. thesis collection.
-
